

# The `simpleicons` package

## High quality icons for popular brands

Simple Icons (Font)  
Inesh Bose ( $\text{\LaTeX}$  package)

March 3, 2023

This package provides  $\text{\LaTeX}$  support for the Simple Icons logos. To use Simple Icons in your document, include the package with `\usepackage{simpleicons}`. An icon can be accessed using the icon name (one word, lowercase). To do this, you can use `\simpleicon{thebrandname}`. A list of all included icons with their respective commands can be found at the end of this document.

### Example

```
...
\usepackage{simpleicons}
...
\begin{document}
...
\simpleicon{github}
...
\end{document}
```

Result: 

### Bugs

This package is very new and in alpha stage right now. For bug reports and feature requests, report on the GitHub repository <https://github.com/ineshbose/simple-icons-latex>.

If you get an error "dfTeX error: pdflatex: Font at 600 not found", add `\pdfmapfile{+simpleicons.map}` in the preamble.

## List of icons

| Icon               | Name                      | Direct command                  |
|--------------------|---------------------------|---------------------------------|
| ①                  | <i>1001tracklists</i>     | \simpleicon{1001tracklists}     |
| ①                  | <i>1password</i>          | \simpleicon{1password}          |
| 3M                 | <i>3m</i>                 | \simpleicon{3m}                 |
| 42                 | <i>42</i>                 | \simpleicon{42}                 |
| 4chan              | <i>4chan</i>              | \simpleicon{4chan}              |
| 4d                 | <i>4d</i>                 | \simpleicon{4d}                 |
| 500px              | <i>500px</i>              | \simpleicon{500px}              |
